NARRATIVE FOR PLANNING INFORMATION

This report contains Annual Planning Information for Program Year 1987-1988. The projections for 1989 were prepared by Lawrence Berkeley Laboratories under contract.

Recent economic events have slowed population growth in all areas of the State. Small employment gains are forecast for most areas with unemployment easing off from record highs. Projections are made at the SDA level only and not for the separate counties.

Two tables are given relating to the education level of the population. One gives the number of years of school completed for persons 25 and over, by sex and race. This 1980 Census data is presented in a new format for ease of use. School Dropouts by Age gives 1980 Census data in a format that makes it easy to determine for future years the approximate number of high school dropouts to expect in any age group. Both of these tables relate to the entire SDA.

The only data available on the handicap status of the population is Census information on Persons with a Work Disability. This table is broken down to give the numbers by sex and race. No data is available by age.

1980 Census data is also given on the number of veterans in the area by race.

Labor force data for the SDA's is given for 1980 through August 1987. Data for component counties is available upon request.

Tables on Population and Labor Force Status by Age, Sex and Race are given for 1980 and 1989. Of particular interest is the column on Labor Force Participation Rates. This is the percent of the 16+ population in each age group that is either working or looking for work.

Census data on the number of area residents employed in each occupation by sex and race is given.

Annual Average Covered Employment, the number of people employed in firms covered by the Texas Unemployment Compensation Act, is given for each SDA for 1984, 1985 and 1986. Data for the first quarter of 1987 is included. After the first of January, data for the second quarter will be available and will be furnished to interested parties upon request. Covered Employment and Wages by Industry and County contains this information for all Texas counties. It is published quarterly and available upon request.

Average weekly wages in covered employment by county gives some indication of wage levels in the various areas. Wage data by 2-digit manufacturing industry and by major industries in nonmanufacturing is presented for the SDA.

Using annual average covered employment for 1986, estimates were made for the number of people employed in each occupation by industry for the SDA.

Under JTPA many questions have been raised about the kinds of jobs young people do and the industries and occupations in which they work. These same questions are also asked in setting up training programs for older workers. Although data are not available for all the SDAs, the 1980 Census contained age and sex breakouts by occupation and industry for the State and MSAs of over 100,000 population. Detail on Race was available for the State only. These tables are included in all books so the SDA can choose the most appropriate tables for their area.

Characteristics of the Insured Unemployed, current and a year ago, gives a comparison of the number of claimants in each occupation and industry now compared with the same time last year. Copies of the current reports for the individual counties may give further information on conditions within each SDA. Of particular interest is the number of claimants who have been filing claims for 15 weeks or more, by industry and occupation. These are available for the SDA and each county for August 1987.

A table is included giving data on household income in 1980 with an update for 1989.

Work Force Patterns of Poverty Families gives data on the number of heads of household by sex and race who worked in 1979. Comparisons are presented for female heads of household and for poverty female heads of household.

Another table gives further data on the labor force patterns of women comparing labor force participation rates depending on whether or not there is a husband present and/or children under 18 in the home.

Estimates of the poverty population by age, sex and race for 1980 and 1989 are given for each SDA.

The Department of Human Services supplied data on Aid to Families with Dependent Children by county and SDA.

If you need further information in planning for your 1987-1988 program year, please feel free to contact us.

VETERAN STATUS
OF THE POPULATION

1980*

STATE OF TEXAS

	Total	White	Black	Hispanic
Persons 16 Years & Over	10,455,532	7,397,299	1,169,112	1,889,121
Veteran & Military Service Status:				
Currently in Armed Forces	148,608	101,918	31,075	15,615
Female	17,439	12,132	3,919	1,388
Veteran	1,715,857	1,385,990	143,278	186,589
Female	69,200	53,907	7,810	7,483
Post-Vietnam Era	73,074	43,936	14,467	14,671
Vietnam Era	554,441	424,944	52,360	77,137
Other Conflicts	877,736	744,778	61,832	71,126
Other Peacetime Service	210,606	172,332	14,619	23,655

*Based on data from the 1980 Census of Population.

At the time of 1980 Census was taken, 1.4 % of the 16+ population was in the Armed Forces. This percentage varied from 0.8 % for the Hispanic group to 2.7 % of the Blacks; the White and Other group was between the two extremes, with 1.4 %. Females made up 11.7 % of those currently in the Armed Forces, with Black females representing 12.6 % of the Black group. Hispanic females made up 8.9 % of the Hispanic group and White and Other 11.9 % of their group.

Veterans comprised 16.4 % of the over 16 population, with White and Other leading with 18.7 %. Black veterans represented 12.3% of the Blacks and Hispanic veterans 9.9% of their group. A much smaller ratio of females were veterans than are currently in the military -- some 4.0%. Blacks again are the leader with 5.5% of Black veterans being female.

Statewide, some 72.3% of the veteran population were high school graduates, with the percentage ranging from 89.3% of the 30-34 year-old group to 53.6% of those 55 and over. The 16-24 group, with 73.8% H. S. graduates, were the most apt to be enrolled in school. Less than 15% of those in school were finishing high school; most were attending college.

Over 80% of veterans were in the civilian labor force and only 3% of them were unemployed. The 55+ group was least apt to be in the labor force (59.6%). The 16-24 group had the highest jobless rate (8.3%) and next to the 55+ group were least apt to be in the labor force (84.4%). Just over one-third of the Veterans were either from the Vietnam-Era or Post-Vietnam Era. This rises to 46.6 for Blacks and to nearly 50% for Hispanics. All of the veterans under 30 fall within these 2 periods of service. The 16-29 group represents 88.6% of the Post-Vietnam Era Veterans and 25.8% of the Vietnam-Era Veterans.

Parts of this table were taken from Tables 2 and 8 in Report 3; parts were from Tables 176 and 184 in the 1980 Census. In Table 184, Hispanics can be of any race. Since in Texas less than 1% of Hispanics identified themselves as Black, the category White* (White and Other) is merely the numerical difference between Total and (Black + Hispanic).
